

Course Information: Yachtmaster™ Theory

This course will take your theory knowledge to the standard required for the Coastal Skipper and Yachtmaster Offshore practical exams, concentrating on advanced navigation and meteorology skills.

It will equip you with the theoretical knowledge required to navigate around coastal waters by day and night, and is invaluable for making decisions on board and if you are considering taking the Coastal Skipper practical course.

Coastal Skipper / Yachtmaster Shorebased Course	
Max client / instructor ratio	4 : 1
Pre-course experience	Knowledge of theory to Day Skipper level, and sailing experience to Day Skipper practical level
Assumed Knowledge	Navigation to Day Skipper Shorebased standard
Course content	Offshore and coastal navigation, pilotage of coastal and offshore passages, understanding of the effects of meteorology
Ability after course	Sufficient knowledge to navigate around coastal waters by day and night
Course duration	40 hours and 3 assessment papers

All our theory courses take place in our purpose built air conditioned classroom, complete with the latest facilities.

All our courses include accommodation and can be taken either on their own or with another course.
