

# Course Information: Powerboat Level 2

**RYA Powerboat Courses** are run using one of our RIBs. You will normally be asked to join us at 10:00 on pontoon 2 in our base marina Marina de Sur, Las Galletas. Occasionally we may ask you to join us elsewhere – if so full instructions will be given.

This is very much a hands-on course learning to handle the powerboat. You will spend some time in our purpose built classroom learning navigation and passage planning, but all the equipment (pens, pencils etc) will be provided. You may, however, find a notebook useful if you wish to keep a record of what is taught.

On the second day you will put your passage plan into practice and go to a bay on the island where you will get the opportunity to swim if you wish.

Powerboat Course Summary	
<b>Max client / instructor ratio</b>	3 : 1
<b>Pre-course experience</b>	None
<b>Assumed Knowledge</b>	None
<b>Course content</b>	Pilotage, boat handling, seamanship and navigation
<b>Ability after course</b>	Can skipper a powerboat up to 10m in familiar waters by day
<b>Minimum duration</b>	2 days

## What do you need to bring?

We suggest that you wear shorts and a t-shirt. In the winter months the temperature is about 25 degrees, but due to the sea breeze you may wish to bring a sweatshirt or cardigan. Footwear can be either bare feet or non-marking soled shoes (trainers are fine).

As most of this course is in the sun please bring plenty of high-factor sun-cream and also bottled water. If you forget either of these ask your Instructor who can take you to our shop.

We supply:

- ⇒ The loan of an oilskin jacket;
- ⇒ Powerboat handbook;
- ⇒ Powerboat Log Book;
- ⇒ All fuel and mooring fees

We suggest that you either bring sandwiches for lunch or about €7.50 for lunch and a cold drink.
